# #1 GROWTH SPORT FOR KIDS!\*

## Learn Golf Right from the Start

We believe a successful junior program has to be fast-paced, challenging, and offer recognition. We break complex skills down into bite-sized chunks, and create games that bridge the gap between other athletic endeavors. We ensure that every player feels a connection with the teacher and the material. This deliberate play for golf/athletic learning is created through a variety of stations designed with purpose and enjoyment. **Dedicated to inspiring kids to be the best they can be, on and off the course.**

\* 2015 Sports & Fitness Industry Association
