Note: The following table reflects new guidance distributed by the CDC on 2/12/21 regarding COVID-19 community spread metrics.

Table 1. CDC Indicators and Thresholds for Community Transmission of COVID-19¹

Indicator	Low Transmission Blue	Moderate Transmission Yellow	Substantial Transmission Orange	High Transmission Red
Total new cases per 100,000 persons in the past 7 days ²	0-9	10-49	50-99	≥100
Percentage of NAATs that are positive during the past 7 days ³	<5.0%	5.0%-7.9%	8.0%-9.9%	≥10.0%

¹If the two indicators suggest different levels, the actions corresponding to the higher threshold should be chosen. County-level data on total new cases in the past 7 days and test percent positivity are available on the County View tab in [CDC's COVID Data Tracker](#).

²Total number of new cases per 100,000 persons within the last 7 days is calculated by adding the number of new cases in the county (or other community type) in the last 7 days divided by the population in the county (or other community type) and multiplying by 100,000.

³Percentage of positive diagnostic and screening NAATs during the last 7 days is calculated by dividing the number of positive tests in the county (or other administrative level) during the last 7 days by the total number of tests resulted over the last 7 days. Additional information can be found on the [Calculating Severe Acute Respiratory Syndrome Coronavirus 2 \(SARS-CoV-2\) Laboratory Test Percent Positivity: CDC Methods and Considerations for Comparisons and Interpretation](#) webpage.

⁴Previously, CDC provided guidance for schools through the Indicators for Dynamic School Decision-Making. The current indicators and thresholds are an update to that document that reflect a focus on the past 7 days, and four (rather than five) categories of community transmission.

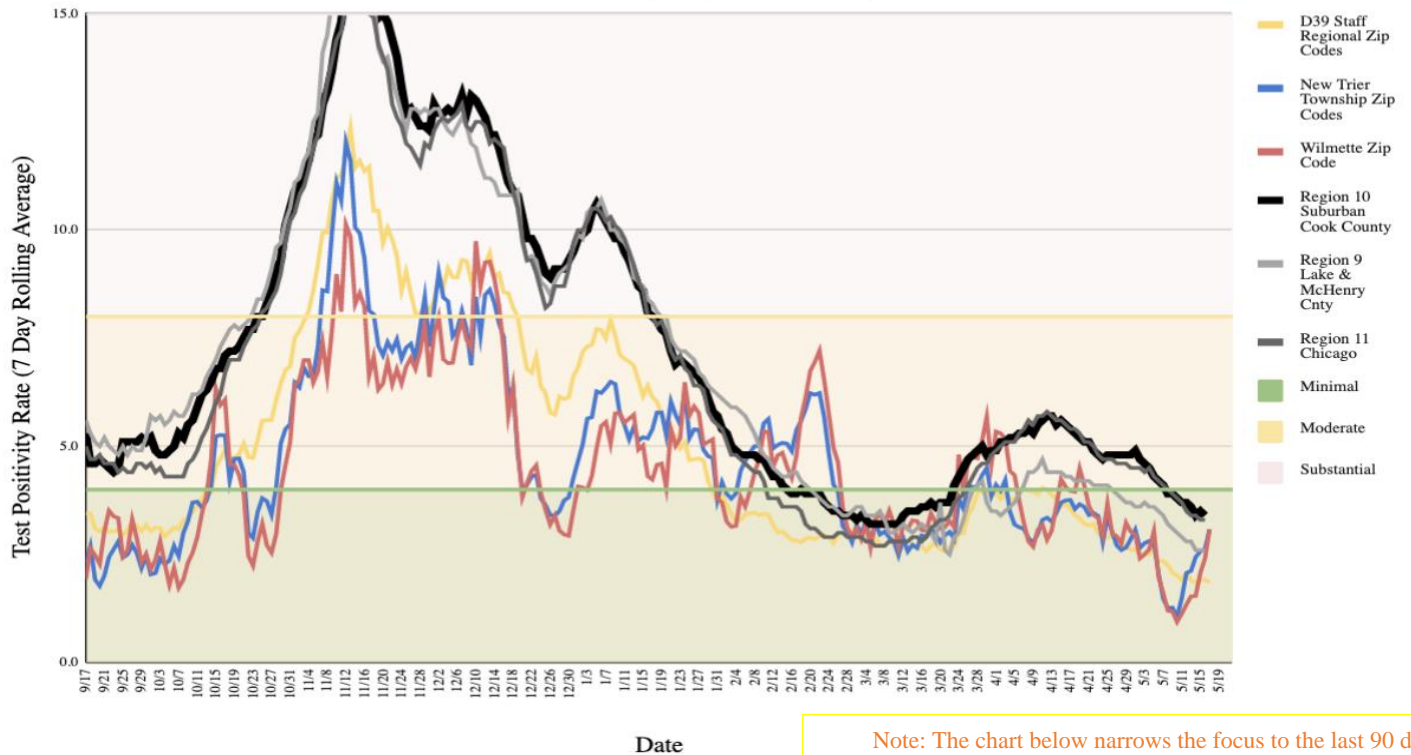

Metrics Under Review

Summary Charts – Published to the [Metrics Reopening Advisory Team Website](#)

Screenshot of data displayed on Wednesday.

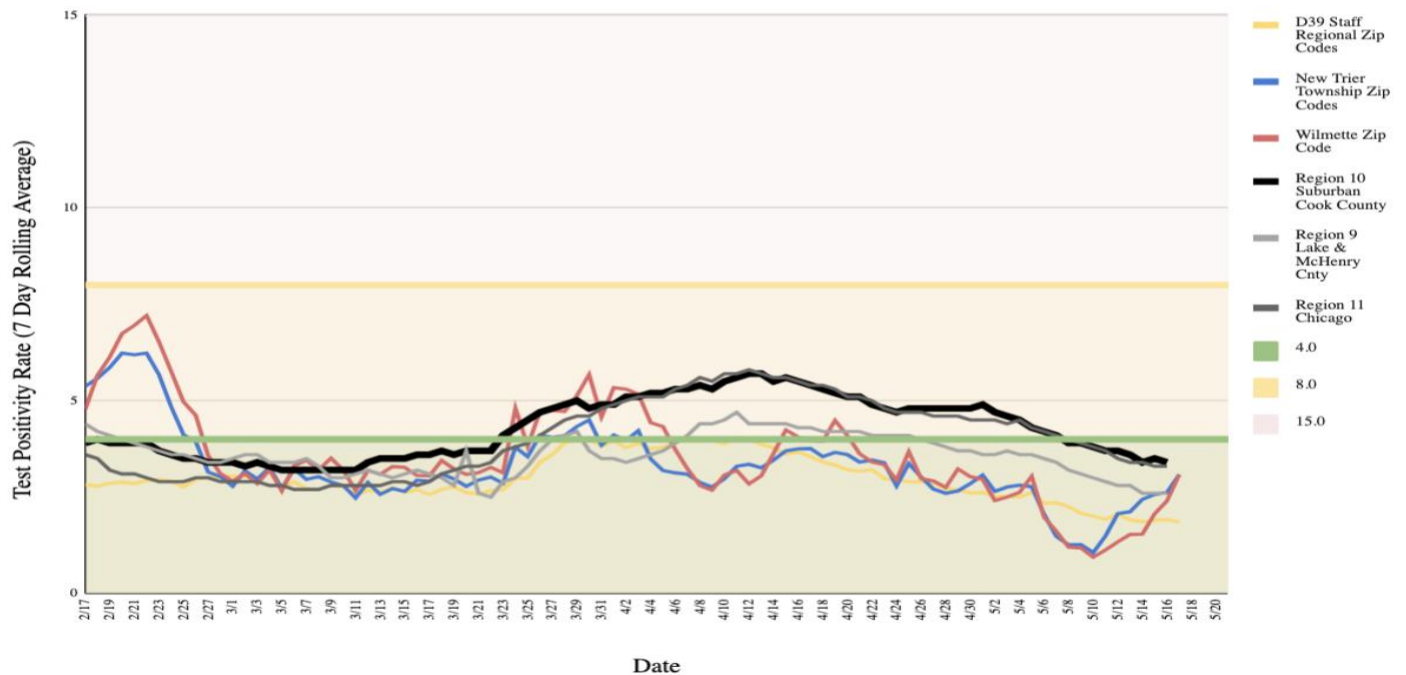

COVID-19 Test Positivity Rates

Data Available as of Wednesday 5/19/21 (IDPH data compiled by Northwestern at <http://covid-dashboard.fsm.northwestern.edu/>)

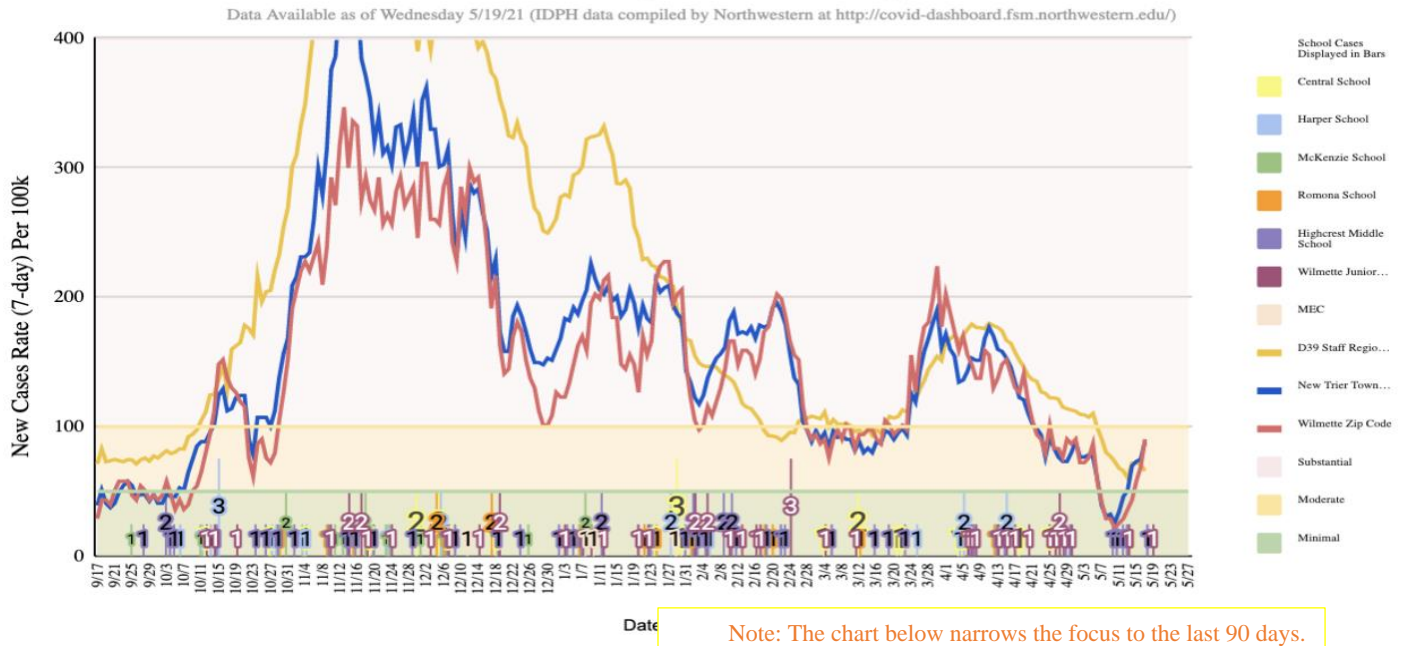

COVID-19 Test Positivity Rates

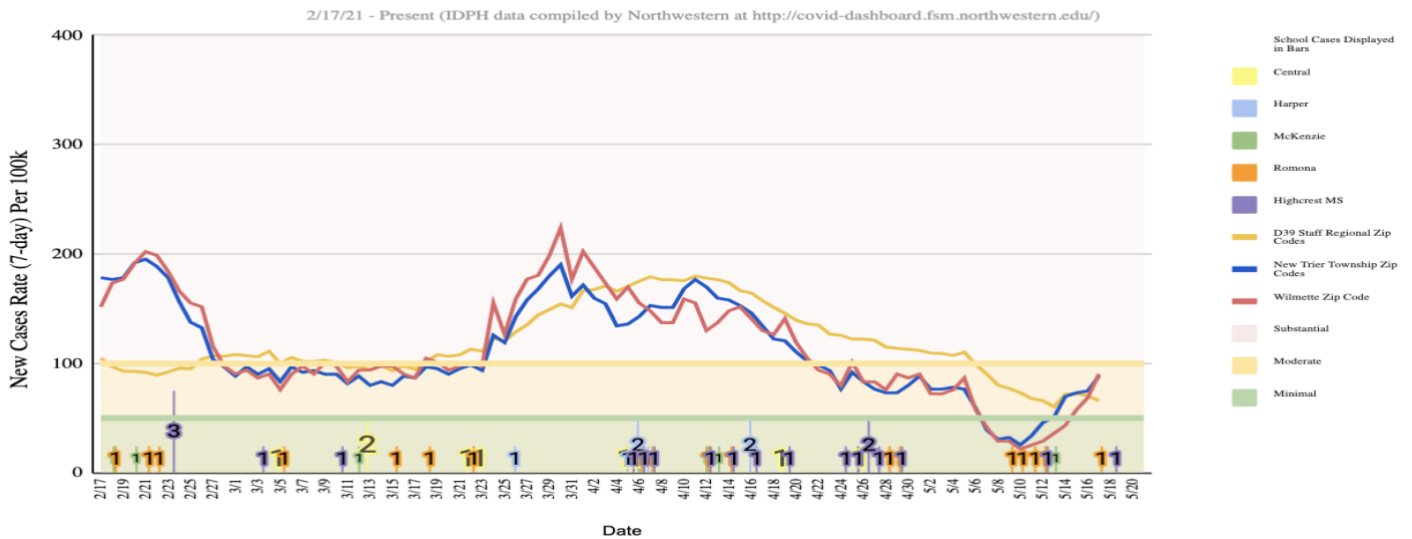

2/17/21 - Present (IDPH data compiled by Northwestern at <http://covid-dashboard.fsm.northwestern.edu/>)

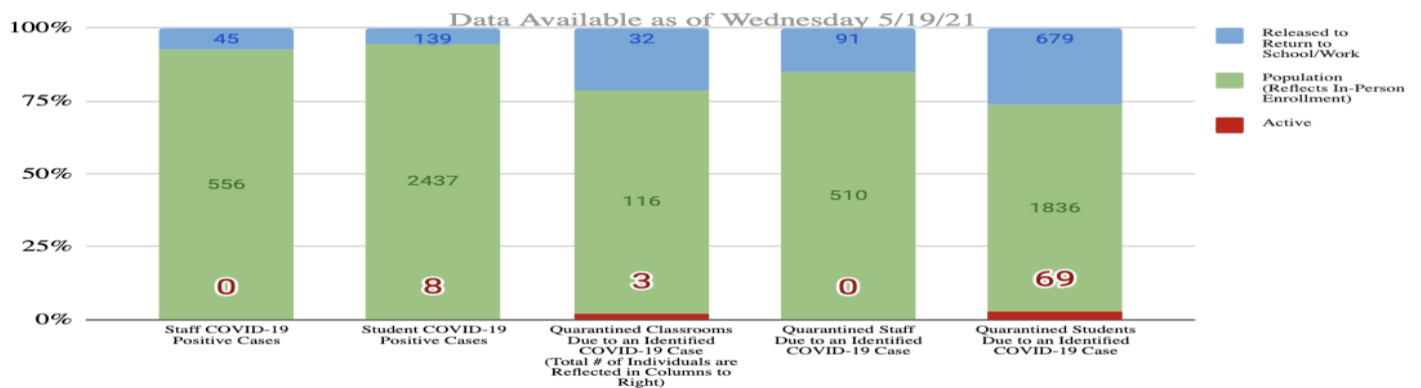

New Case Rate per 100,000 Population

New Case Rate per 100,000 Population

COVID-19 Cases in D39

Local COVID-19 Data: Tracked by New Trier Township from the [Illinois Department of Public Health Metrics](#) ([Additional Metric Tracker Under Development at Northwestern University](#))

- COVID Positivity Rates – 7-day Rolling Average
- New Cases per 100,000 – 7-day Rolling Average

Screenshot of data displayed on Wednesday.

1. Wilmette

Data for 5/17/2021 (7-Day)

Rolling Average Number Tested per Day	116.1
Rolling Average Number of Positive COVID Tests per Day	3.6
Rolling Average COVID Positivity Rate	3.08 %
Number of new cases (7-day) per 100,000 population	90.3

Data for 5/17/2021 (14-Day)

Rolling Average COVID Positivity Rate	2.13 %
Number of new cases (14-day) per 100,000 population*	112.0

*10/08/2020: Number of new cases per 100,000 persons within the last 14 days is calculated by adding the number of new cases in the zip code in the last 14 days divided by the population in the zip code and multiplying by 100,000. (Aligned with CDC threshold guidelines)

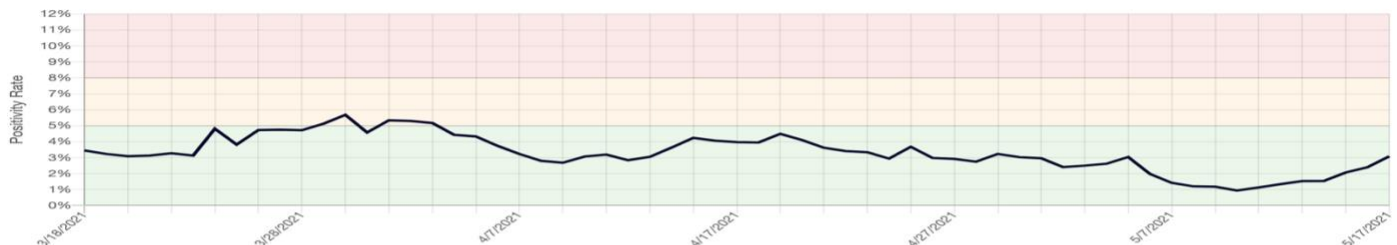

11/06/2020: Beginning 11/6 IDPH began including "probable cases" in their totals. Thus we cannot separate actual cases from probable cases at the zip code level. Given that IDPH added multiple weeks of probable cases into the data for November 6, 2020, that particular day would appear to be a sudden spike. Thus we have excluded data from that date and resumed showing data as of November 7, 2020 (that includes actual and probable cases).

Over the Last Week:

	5/10/2021	5/11/2021	5/12/2021	5/13/2021	5/14/2021	5/15/2021	5/16/2021
Tests per Day*	91.3	88.1	85.3	93.3	111.6	110.3	113.3
Cases per Day*	0.9	1.0	1.1	1.4	1.7	2.3	2.7
Positivity Rate*	0.94 %	1.13 %	1.34 %	1.53 %	1.54 %	2.07 %	2.40 %
Number of new cases (7-day) per 100,000 population	21.7	25.3	28.9	36.1	43.3	57.8	68.6

* Calculated as 7-day rolling averages

(Solid - Selected Zip Codes; Dashed - Illinois; Dotted - Regional)

2. New Trier Township Zip Codes (60022, 60043, 60091, 60093)

Data for 5/17/2021 (7-Day)

Rolling Average Number Tested per Day	241.0
Rolling Average Number of Positive COVID Tests per Day	7.4
Rolling Average COVID Positivity Rate	3.08 %
Number of new cases (7-day) per 100,000 population	88.4

Data for 5/17/2021 (14-Day)

Rolling Average COVID Positivity Rate	2.16 %
Number of new cases (14-day) per 100,000 population*	113.9

*10/08/2020: Number of new cases per 100,000 persons within the last 14 days is calculated by adding the number of new cases in the zip code in the last 14 days divided by the population in the zip code and multiplying by 100,000. (Aligned with CDC threshold guidelines)

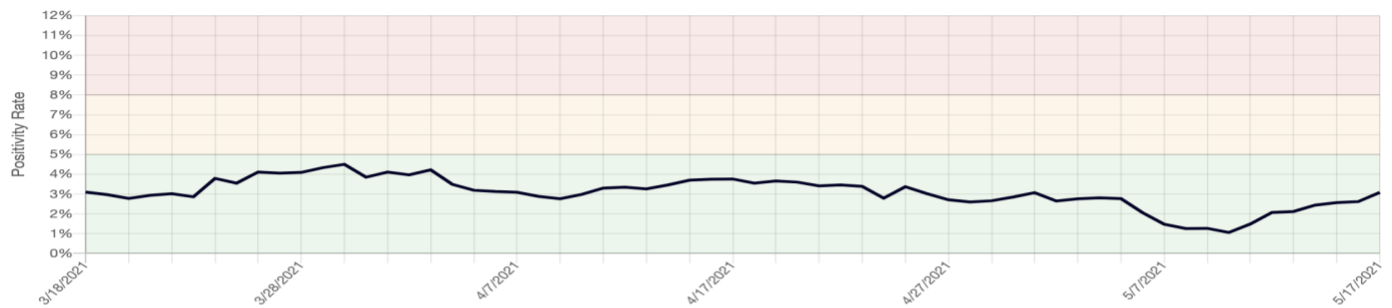

11/06/2020: Beginning 11/6 IDPH began including "probable cases" in their totals. Thus we cannot separate actual cases from probable cases at the zip code level. Given that IDPH added multiple weeks of probable cases into the data for November 6, 2020, that particular day would appear to be a sudden spike. Thus we have excluded data from that date and resumed showing data as of November 7, 2020 (that includes actual and probable cases).

Over the Last Week:

	5/10/2021	5/11/2021	5/12/2021	5/13/2021	5/14/2021	5/15/2021	5/16/2021
Tests per Day*	202.3	192.0	186.6	202.0	240.4	238.7	240.1
Cases per Day*	2.1	2.9	3.9	4.3	5.9	6.1	6.3
Positivity Rate*	1.06 %	1.49 %	2.07 %	2.12 %	2.44 %	2.57 %	2.62 %
Number of new cases (7-day) per 100,000 population	25.5	34.0	45.9	51.0	69.7	73.1	74.8

* Calculated as 7-day rolling averages

Governor's Restore Illinois Plan: [Metrics](#)

1. Region 10 Illinois Region COVID-19 Resurgence Data Screenshot of data displayed on Wednesday.

Region 10 Test Positivity

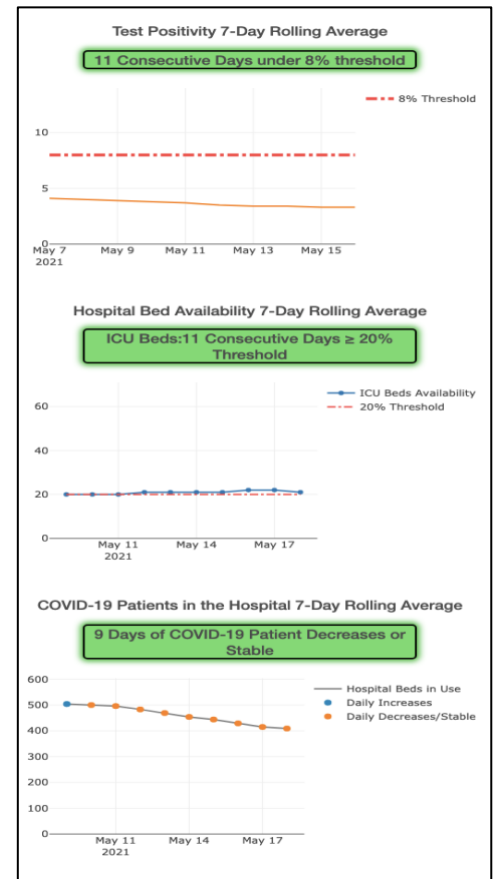

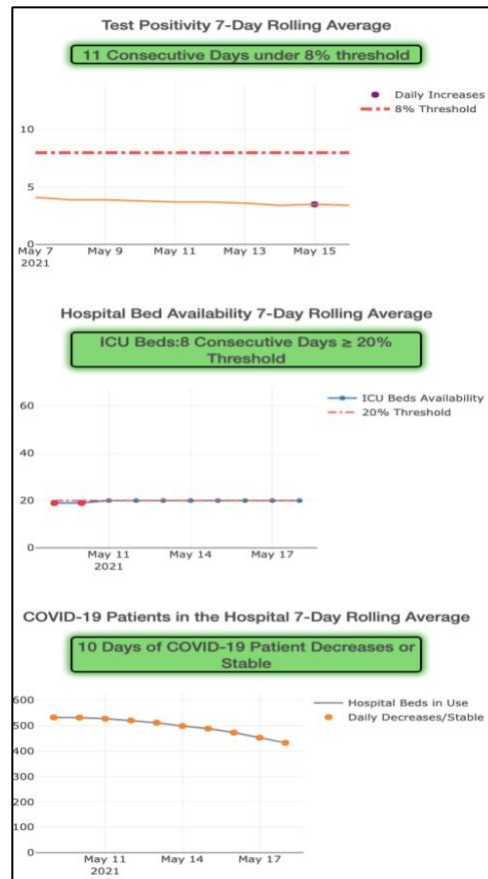

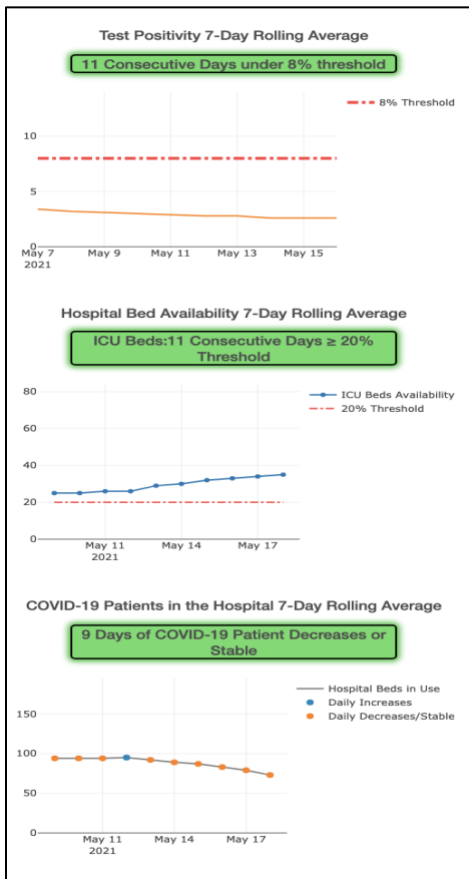

Date	Positive Tests	Total Tested	Daily Test Positivity	Test Positivity 7-Day Rolling Avg
5/6/2021	628	18,343	3.4	4.2
5/7/2021	451	13,126	3.4	4.1
5/8/2021	481	11,720	4.1	3.9
5/9/2021	375	8,205	4.6	3.9
5/10/2021	353	7,637	4.6	3.8
5/11/2021	408	10,542	3.9	3.7
5/12/2021	451	16,180	2.8	3.7
5/13/2021	479	16,974	2.8	3.6
5/14/2021	372	13,919	2.7	3.4
5/15/2021	416	9,177	4.5	3.5
5/16/2021	273	6,499	4.2	3.4

Region 9, 10 and 11 Illinois Region COVID-19 Resurgence Data Screenshot of data displayed on Wednesday.

Region 9
(Includes Lake and McHenry County)

Region 10
(Includes Suburban Cook County)

Region 11
(Includes Chicago)

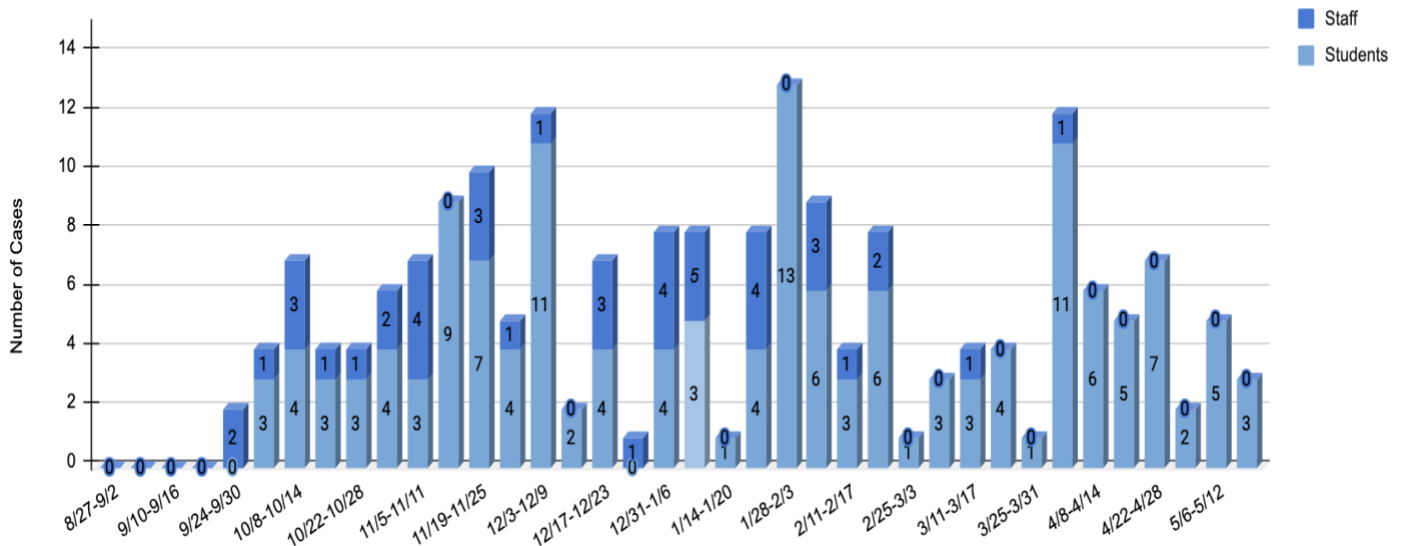

COVID-19 Positive Cases Reported in D39

Data reported as of Wednesday at 4:00 pm. Notices for cases are provided under COVID-19 Communications on [Metrics Dashboard page](#).

- D39 Students (Tracked by School Nurses)
- D39 Staff (Tracked by Human Resources Department)

New COVID Positive Incidents among Students and Staff

Weekly Total Count for District

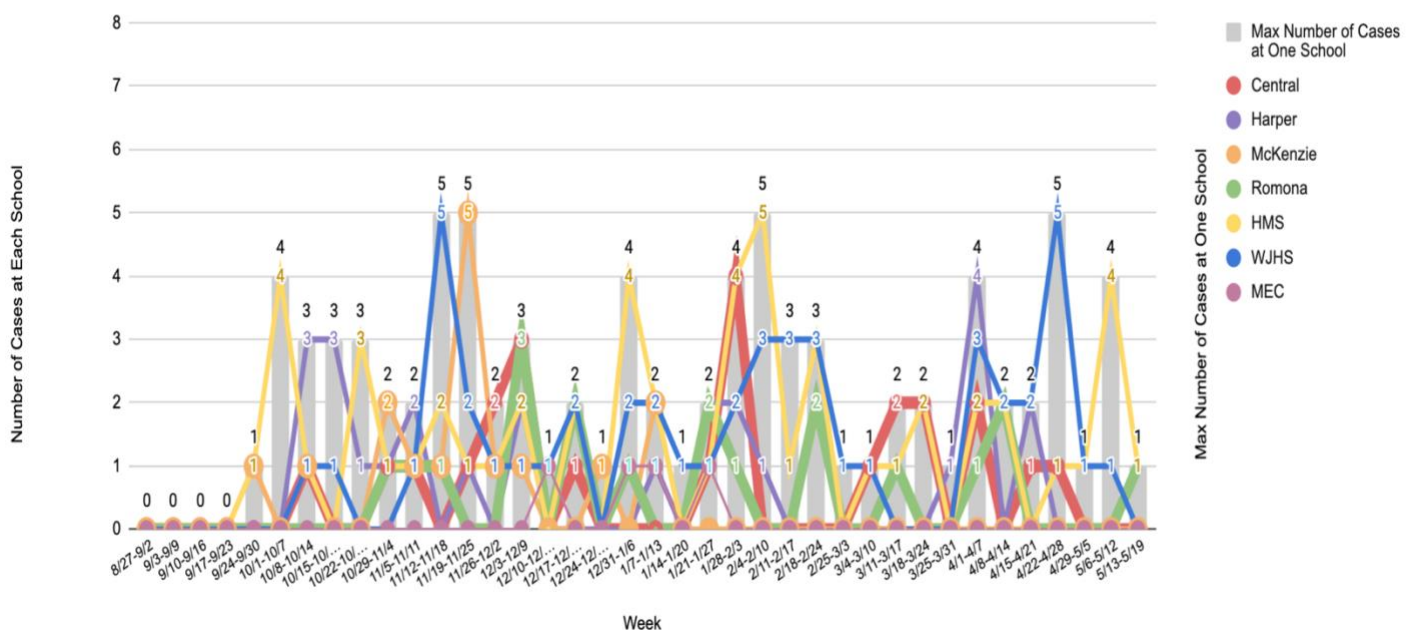

- Max Number of Cases at One School

The chart below reflects a compilation of the data reported on the previous page by school.

Data reported as of Wednesday at 4:00 pm. Notices for cases are provided under COVID-19 Communications on [Metrics Dashboard page](#).

Weekly New COVID Positive Incidents Per School

Staff and Students Combined

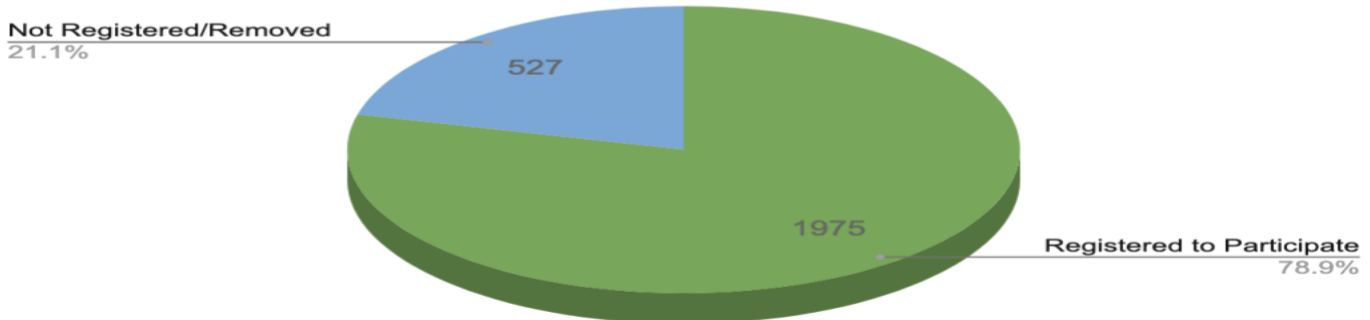

SafeGuard Screening Metrics

Data reported as of Wednesday for each week.

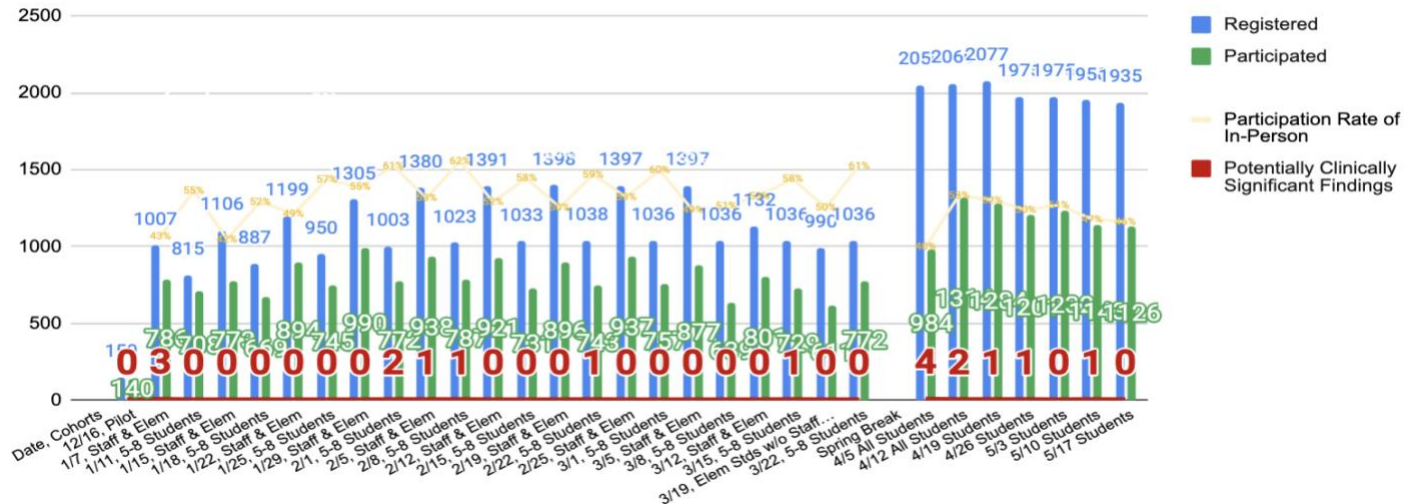

Student Registration for SafeGuard Screening

Registration of In-Person Students

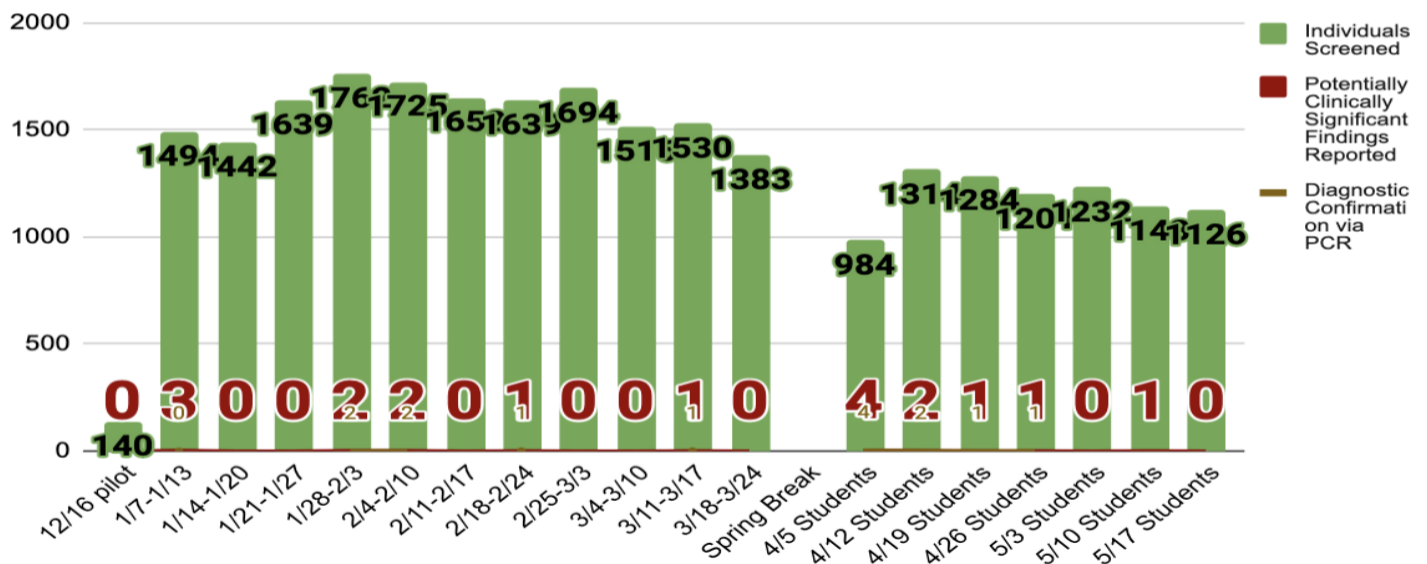

Note: Staff participation has discontinued as staff completed their vaccine cycle. More than 94% of staff are now fully vaccinated.

SafeGuard Screening Experience

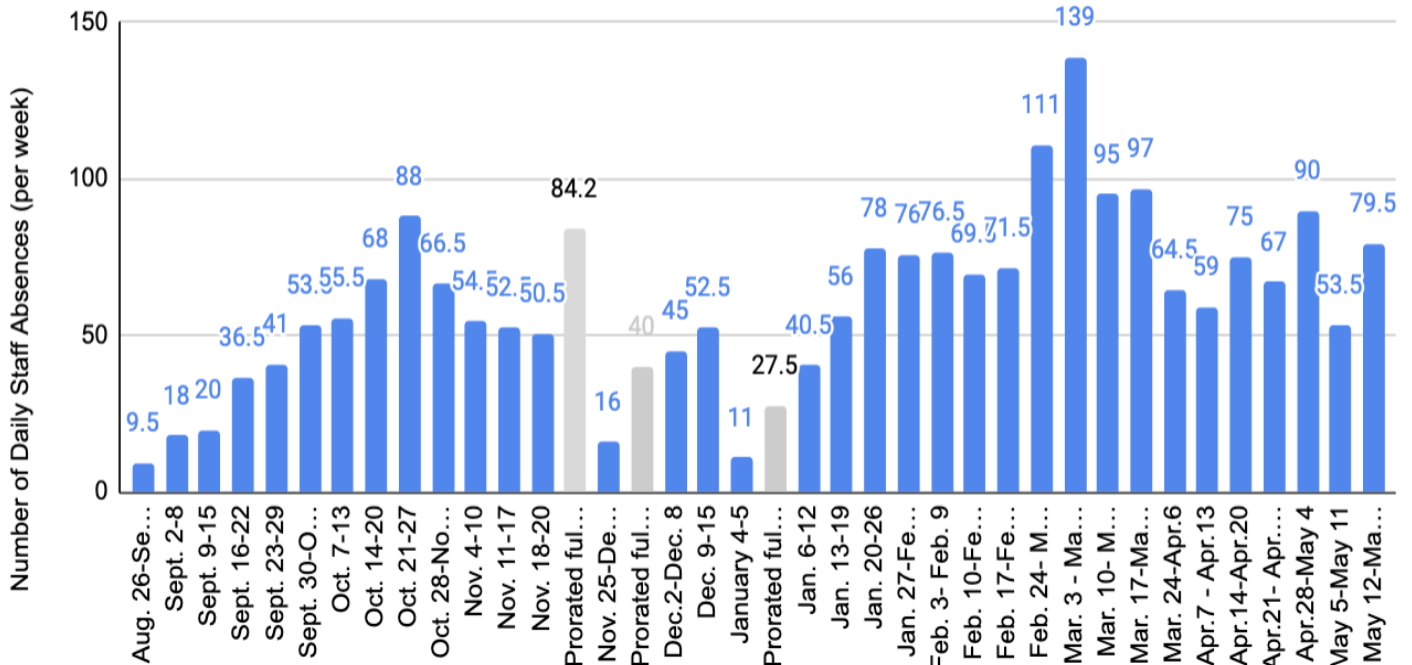

Weekly Summary of Screening

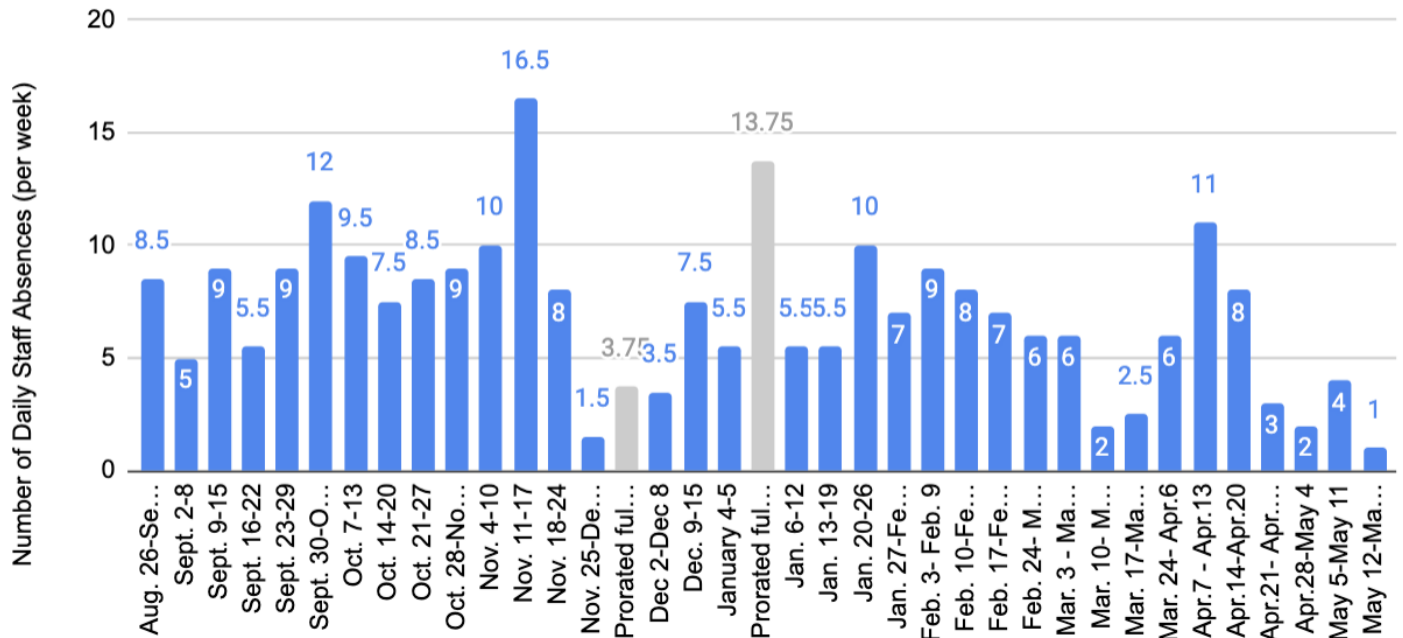

Staffing Levels - (Tracked by Human Resources Department via Frontline)

Data reported as of noon on Wednesday for each week.

- Certificated Staff Sick Day Absences (382 employees; 1,910 work days per week)

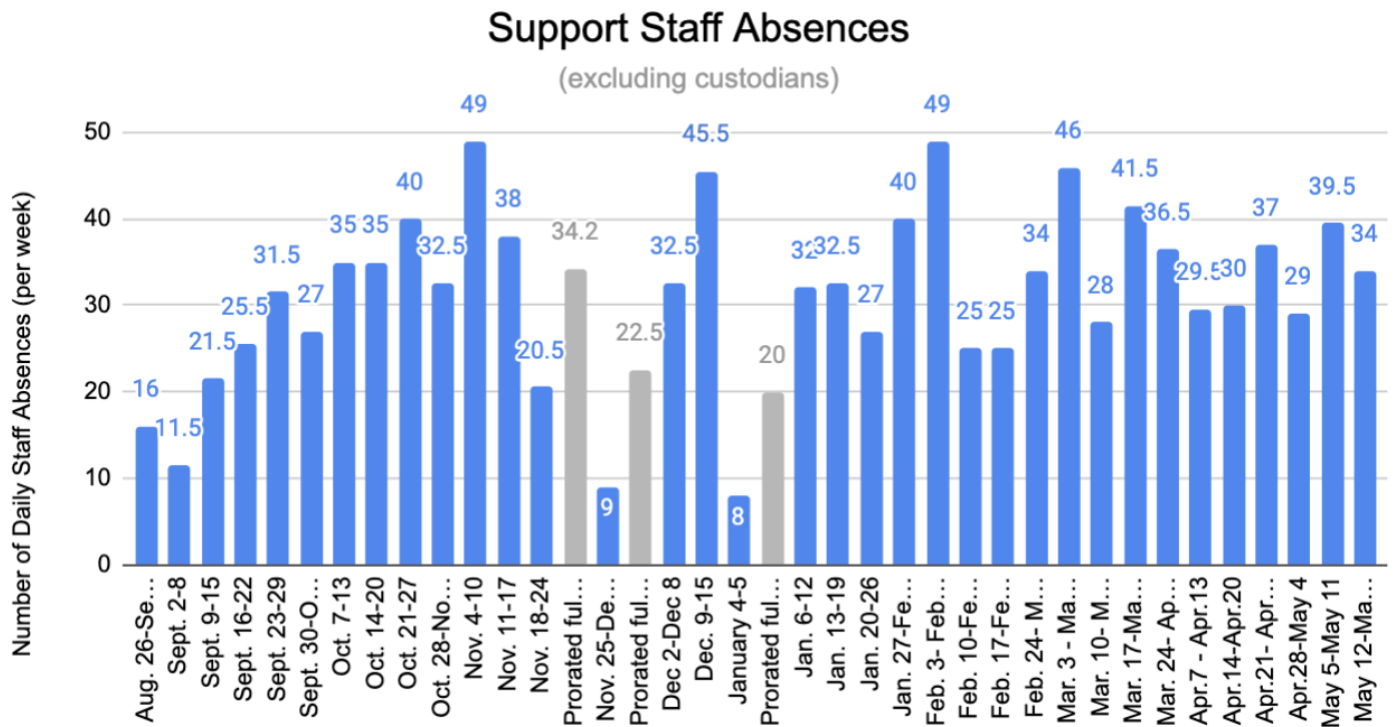

Certified Staff Absences

- Custodial Staff Sick Day Absences (34 employees; 170 work days per week)

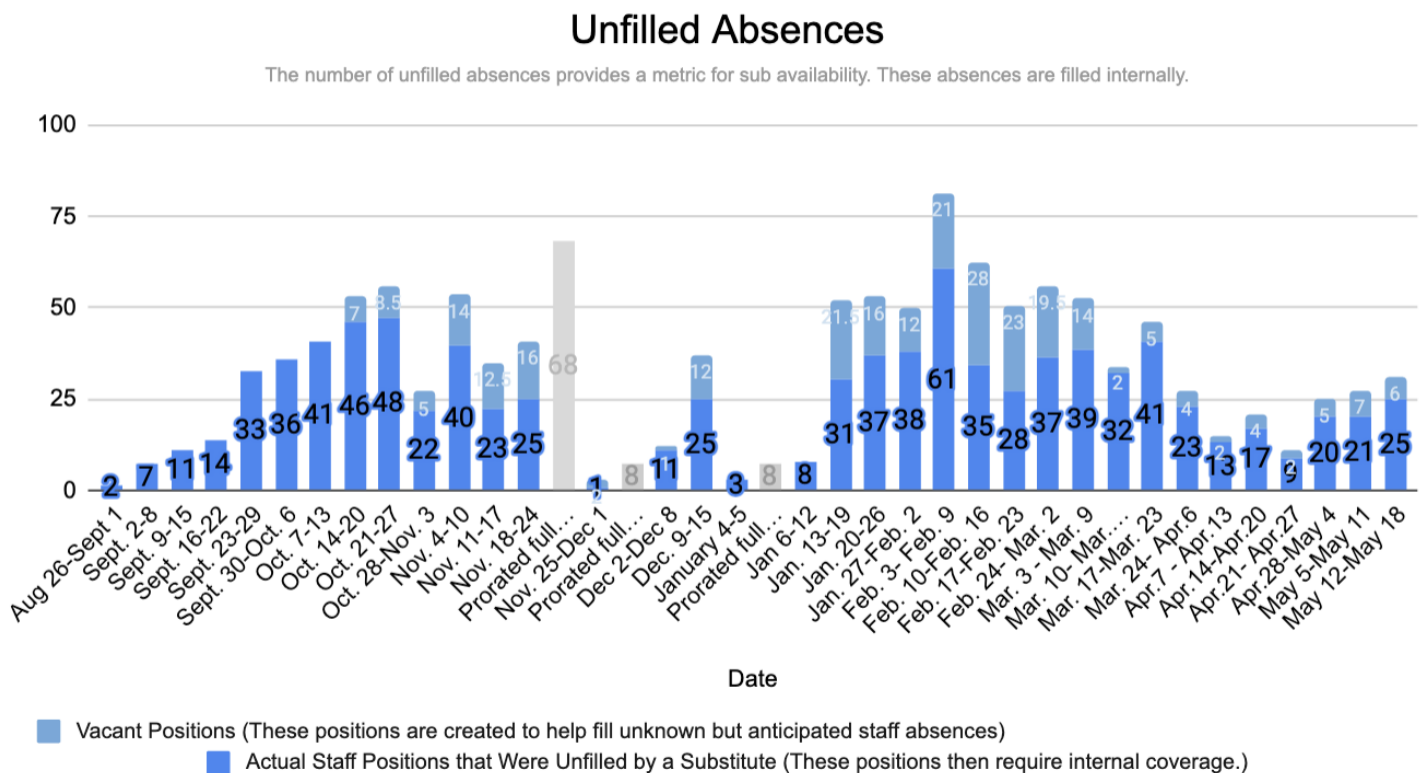

Custodian Absences

Note: The grey bar estimates absences based on those in the first half of the week.

- Support Staff Absences (152 employees; 760 work days per week)

- Availability of Substitutes (As Measured by Unfilled Substitute Positions; Filled Internally)

Note: Unfilled absences have been delineated between actual staff positions that were unfilled and unfilled vacant positions of preemptive substitute positions created to help fill unknown but anticipated absences.

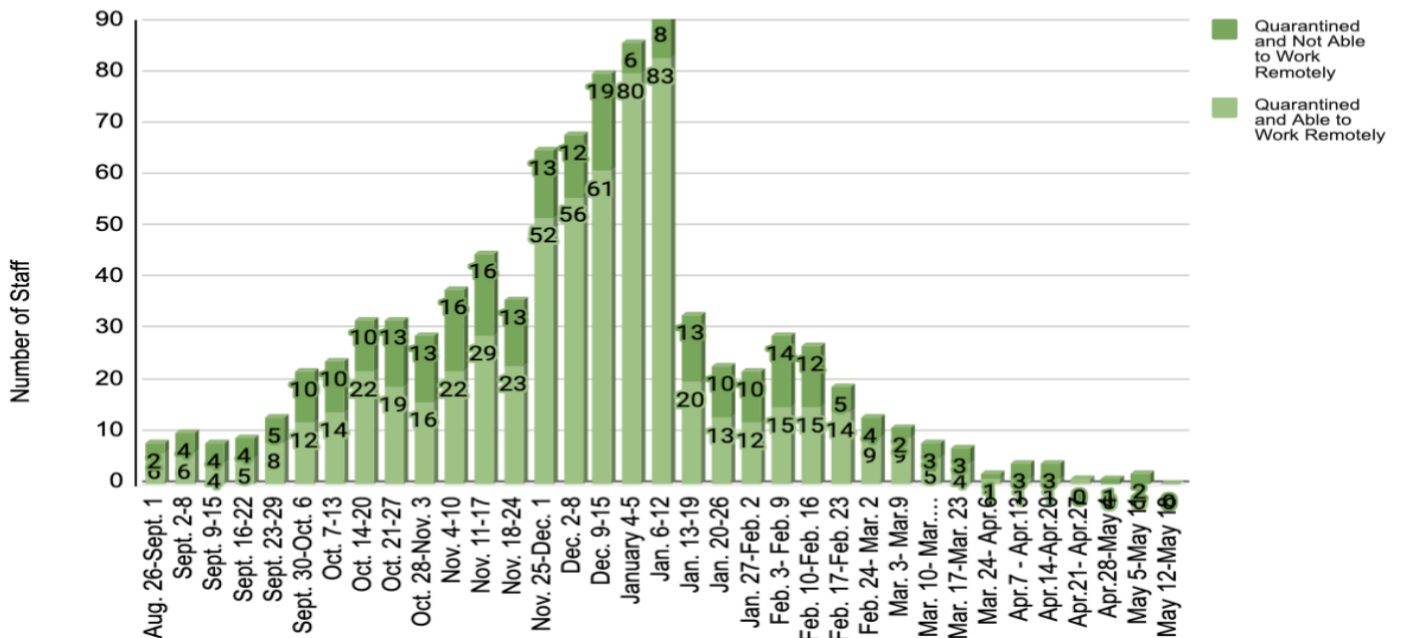

Staff Quarantine Rates (COVID Days)

- Staff Working While on Quarantine
- Staff Not Working While on Quarantine

Data reported as of noon on Wednesday for each week.

Staff on Quarantine

(Individual staff count; Does not include staff associated with a classroom on quarantine)

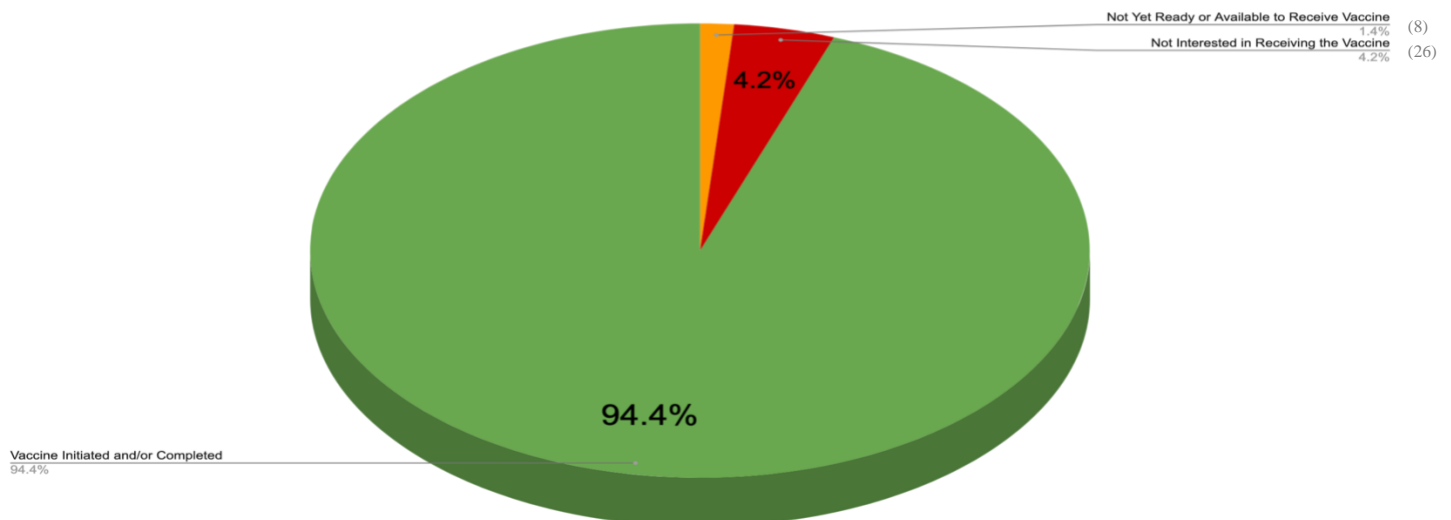

Note: Staff quarantines have remained consistently low since full access to the vaccine was provided. This week's report reflects zero staff in quarantine.

Vaccine Status

574 D39 Employees Reporting.

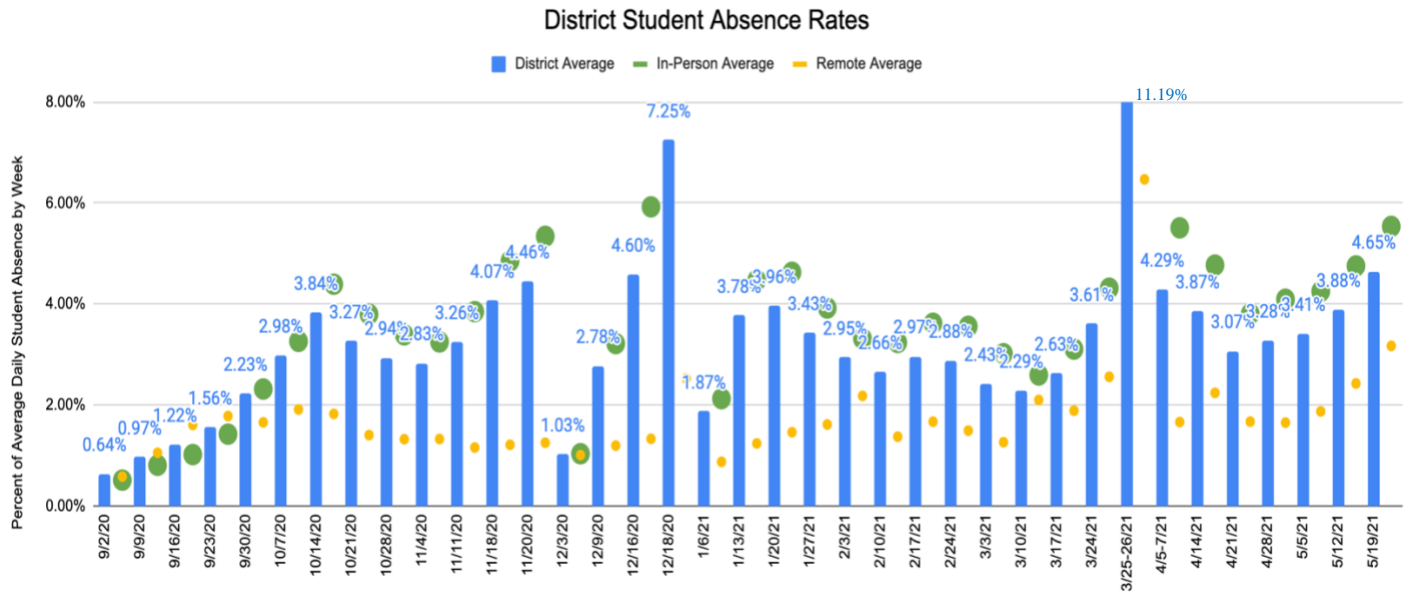

(Employees indicating a need for assistance accessing a vaccine appointment = 0%)

Note: Full access to the vaccine is now readily available to all Illinois residents 16 years and older. These data reflect staff vaccination status reported to the district as of 4/28/21.

Student Absences (Tracked within Student Information System)

- Daily Student Absences

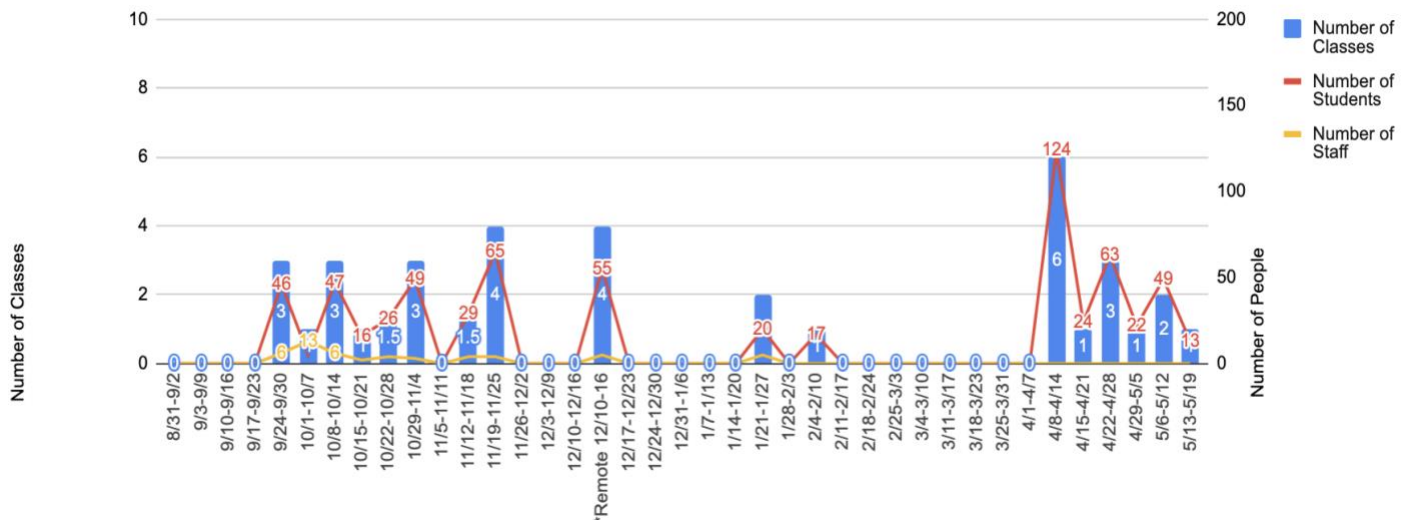

Note: Data for 3/26-27/21 reflect the 2 days before spring break. Absence rates are typically high during the few days before spring break as families leave early for travel, and this year's data reflected this trend. Data for 4/5-7/21 reflect the 3 days of school after spring break.

Targets for Student Absences			
	Substantial	Moderate	Minimal
Weekly Average by District	>7%	<=6% to >4%	<=4%
Typical annual student attendance in District 39 in 95.7% (ISBE Report Card). Thus, typical student absence rates are approximately 4.3%.			

Class Quarantine Rates

Data reported as of noon on Wednesday for each week reflecting the number of classrooms placed onto quarantine, as well as the number of students and staff associated placed onto quarantine as part of the classroom quarantine.

Classroom Placed on Quarantine

Note: The above chart reflects the classrooms placed onto quarantine each week. Please note that most quarantines last for 10-14 days.

Effective Instruction

1. Engagement Levels in Remote Learning

A Targeted Review of the D39 Enhanced Fully Remote Learning Program was conducted. [A Report of Findings](#) was presented at the October Board of Education Meeting ([Agenda](#) & [Video](#)). Follow-up action steps and improvement efforts were discussed and initiated, and will be presented at the October Board Committee of the Whole Meeting.

A Targeted Review of the D39 In-Person Learning Program was conducted. A [Report of Findings](#) was presented at the November Board of Education Meeting ([Agenda](#) & [Video](#)). Follow-up action steps and improvement efforts will be discussed and initiated, and will be presented at the December Board Committee of the Whole Meeting.

2. Learning Progress of Students

In the winter, the district administered the NWEA MAP assessment to students in grades 2-8 as a benchmark of students' academic achievement and growth. The 2021 Winter Benchmark Assessment Report will be presented at the March Board of Education Committee of the Whole Meeting ([Agenda](#) & [Video](#)). (Links to these will be provided once available.)

In the fall, the district administered the NWEA MAP assessment to students in grades 2-8 to evaluate academic achievement and growth. The [2020 Fall Assessment Report](#) was presented at the November Board of Education Meeting ([Agenda](#) & [Video](#)).

In the winter, the district administered the NWEA MAP assessment to students in grades 2-8 as a mid-year check point on academic achievement and growth. The [Winter 2021 Winter Mid-Year Check Point Presentation Report](#) was be presented at the March Committee of the Whole Board of Education Meeting ([Presentation](#), [Agenda](#) & [Video](#).)

A detailed data review was conducted as part of the District 39 Strategic Planning Process. This review included a review of student achievement and growth data ([Presentation Slides](#) & [Video](#)).

2. **Current Scientific Research:** The research on SARS-CoV2 and COVID-19 continues to develop rapidly. The latest findings on spread, mitigation, treatment, and health impact will inform the District's decision-making process.

[Center for Disease Control and Prevention](#)

On February 12, 2021, the Center for Disease Control and Prevention (CDC) issued updated guidance for school reopening. This guidance can be found [here](#).

[Illinois State Board of Education and Illinois Department of Public Health](#)

On Tuesday, March 9, 2021, the Illinois State Board of Education (ISBE) and the Illinois Department of Education (IDPH) issued Revised Public Health Guidance for Schools. This guidance can be found [here](#).
