These data are calculated/estimated from publicly available data from IDPH. We do not have direct access to the raw data. These data are provided by the Surgical Outcomes and Quality Improvement Center (SOQIC) at Northwestern Medicine in partnership with our data analytics collaborator, Jeffrey Softcheck MBA, for informational purposes only. Data are updated daily from the IDPH COVID-19 statistics page (<https://www.dph.illinois.gov/covid19/covid19-statistics>). Data represent total number of tests performed and reported electronically at IDPH, commercial, or hospital laboratories. Data on this website are what has been entered into Illinois' National Electronic Disease Surveillance System (I-NEDSS). IDPH builds in a three-day lag into the data in order to add some cases that are not captured through I-NEDSS (~3% to 5% of the total data) when they publish data at the county-level or region-level on their own website. The data are constantly being entered and may change as cases are investigated. Zip code is the zip code of residence, which may not be the location of the exposure. 2. Operational Metrics - Are there persistent challenges that cannot be resolved?

1. Social Distancing Compliance (Monitored through a daily close contact reporting form)
Every staff member is asked to complete a baseline form and then to report any close contacts that occur on a daily basis. (1773 responses total)

Note: New strategy for monitoring social distancing and contact tracing initiated 10/5/20. Weekly data reporting to begin in 10/16/20 report.

2. Mask Wearing Compliance (# of administrative interventions)

5. Operational Metrics, Supplies and Facilities - Are there persistent challenges that cannot be resolved?

Within the maintenance phase of school operations, principals are asked to rate ongoing management efforts related to areas of operational management, supplies and facility needs within their building. Persistent challenges are situations that arise that require attention beyond simple reminders, redirection and the regular management responsibilities performed within your school. Scale: A 10 indicates that the challenges were persistent and required 10 or more hours of attention from the principal within the last week. A 1 indicates that the challenges were minimal and required 1 hour or less of attention last week.

2. Lunch Safety Management
3. PPE Availability Needs/Persistent Challenges Guidance
4. Facility Adaptations to Accommodate Health Guidance

Note: New rating system for monitoring operational maintenance efforts initiated 9/25. Adjustment for 10/2 to allow for a 0 response.
