These data are calculated/estimated from publicly available data from IDPH. We do not have direct access to the raw data. These data are provided by the Surgical Outcomes and Quality Improvement Center (SOQIC) at Northwestern Medicine in partnership with our data analytics collaborator, Jeffrey Softcheck MBA, for informational purposes only. Data are updated daily from the IDPH COVID-19 statistics page (<https://www.dph.illinois.gov/covid19/covid19-statistics>). Data represent total number of tests performed and reported electronically at IDPH, commercial, or hospital laboratories. Data on this website are what has been entered into Illinois' National Electronic Disease Surveillance System (I-NEDSS). IDPH builds in a three-day lag into the data in order to add some cases that are not captured through I-NEDSS (~3% to 5% of the total data) when they publish data at the county-level or region-level on their own website. The data are constantly being entered and may change as cases are investigated. Zip code is the zip code of residence, which may not be the location of the exposure. 2. Rolling Average COVID Positivity Rates – 7-day Rolling Average  
1. Wilmette (60091)

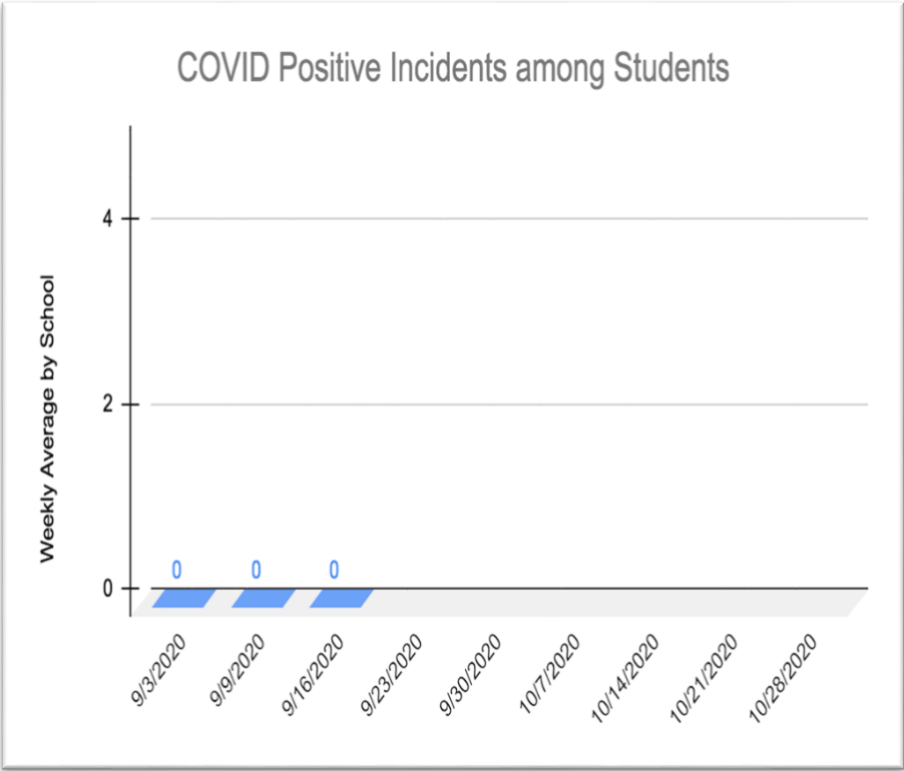

2. New Trier Township Zip Codes (60022, 60091, 60093, 60043)

3. Regional Zip Codes (Zip Codes for 93% of D39 Staff)

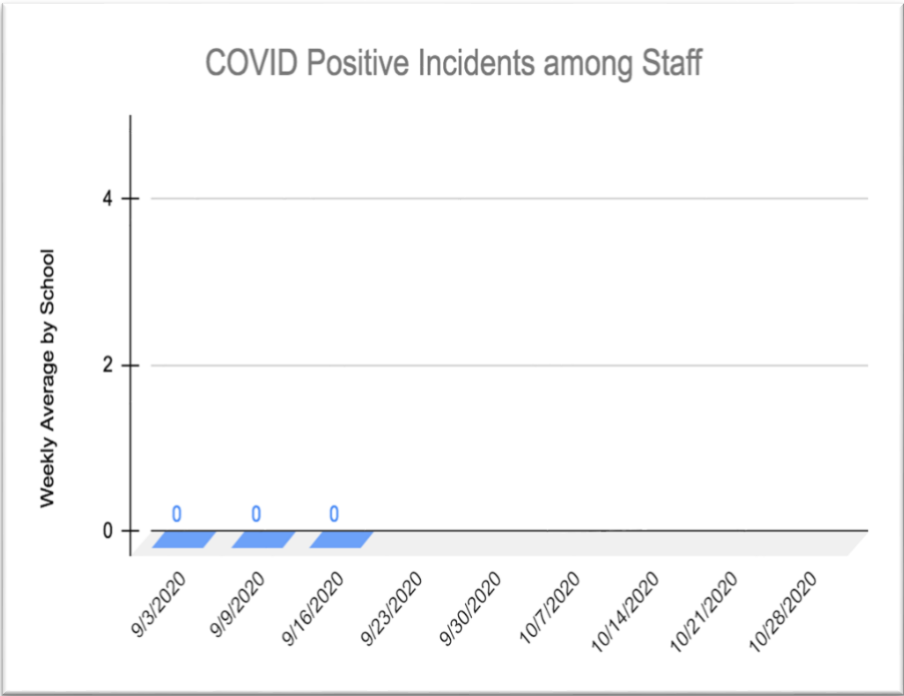

3. COVID-19 Positive Cases Reported in D39  
1. D39 Students (Tracked by School Nurses)

Targets for COVID-19 + Cases			
	Substantial	Moderate	Minimal
Weekly Average by School	>3	2 to 1	0

2. D39 Staff (Tracked by Human Resources Department)

Targets for COVID-19 + Cases			
	Substantial	Moderate	Minimal
Weekly Average by School	>3	2 to 1	0

4. Operational Metrics - Are there persistent challenges that cannot be resolved?

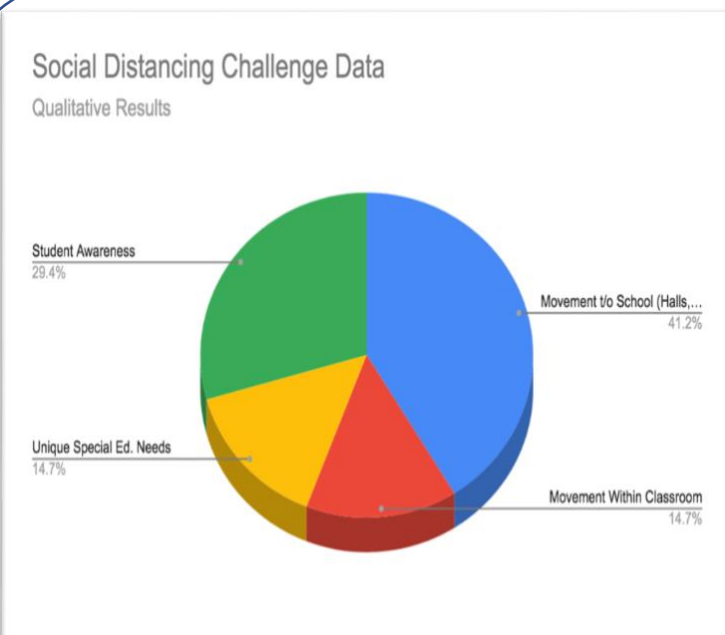

District employees are asked to report persistent challenges with social distancing, mask wearing, PPE availability and/or facility adaptations needs via a weekly survey. Targets were established based on capacity to address challenges within the week. The district employs a total of 568 individuals and the total number of survey respondents are reported weekly.

1. Social Distancing Compliance (# of challenges identified by staff)
2. Mask Wearing Compliance (# of challenges identified by staff)

Targets: Frequency of Reports of Persistent Challenges with Social Distancing/Mask Wearing			
	Substantial	Moderate	Minimal
Weekly Average by District	>24	<=24 to >6	<=6
Weekly Average by School	>4	<=4 to >1	<=1

Note: Additional investigation into qualitative results regarding Social Distancing challenges revealed the following.

Exploration of social distancing challenges data reported on 9/14/20 reveals that staff have identified social distancing challenges to occur within four categories. Staff and students are still working through how to maintain proper social distancing while moving throughout the school (eg. Maintaining a full 6 feet of distancing between students while walking through hallways). In addition, students' awareness of 6 feet of distancing within and outside of school is not yet fully developed. Finally, there are some challenges identified related to the unique needs of students with special needs as well as while teachers move within a classroom.

3. Washroom Break Management (evaluation of schedule effectiveness, emergency access)
4. Lunch Safety Management (# of challenges identified by staff)

No Data to Report for the week of 9/16/2020

5. Self-Certification Compliance (# of students arriving to school without self-certifying)

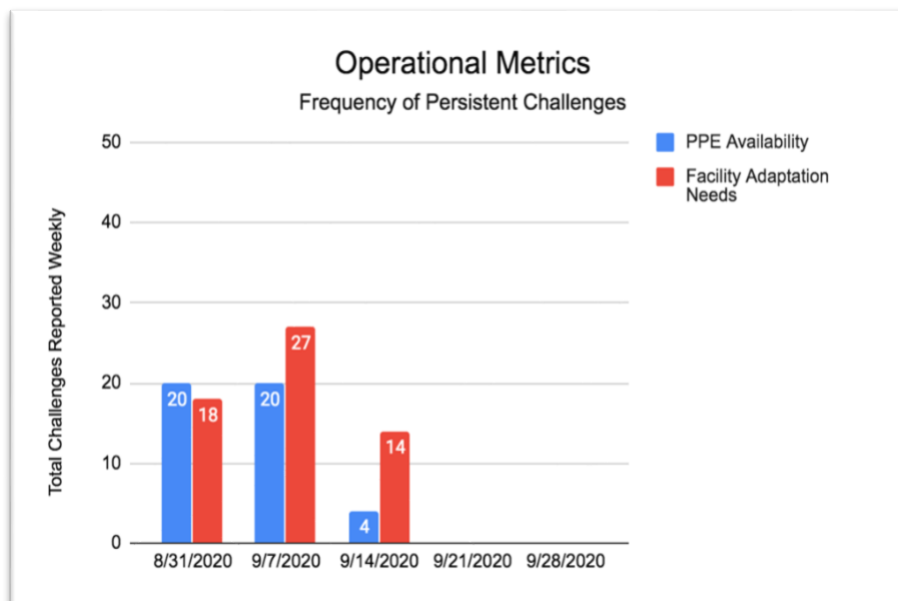

Targets for Frequency of Self-Certification Non-compliance			
	Substantial	Moderate	Minimal
Daily Average by District	>96	<=96 to >30	<=30
Daily Average by School	>16	<=16 to >5	<=5

5. **Supplies and Facilities - Are there persistent challenges that cannot be resolved?**

The District employs 568 individuals. 119 responses were received.

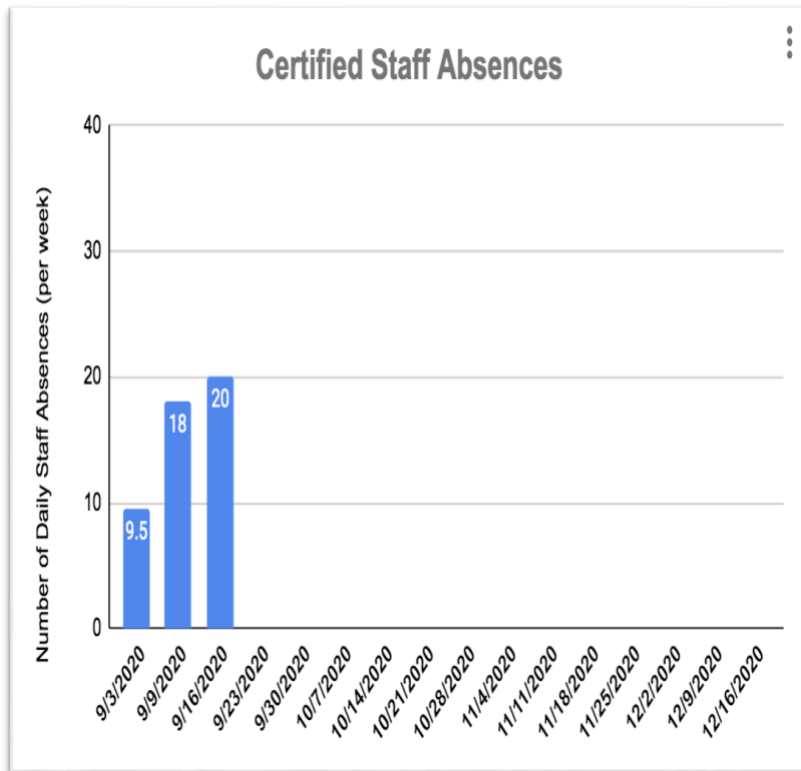

1. PPE Availability Needs/Persistent Challenges Guidance (# of challenges identified)
2. Facility Adaptations to Accommodate Health Guidance (# of challenges identified by staff. This might include classroom and/or school challenges.)

Targets: Frequency of Reports of Persistent Challenges with PPE Availability/Facility Adaptations			
	Substantial	Moderate	Minimal
Weekly Average by District	>24	<=24 to >6	<=6
Weekly Average by School	>4	<=4 to >1	<=1
